REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art does not teach or fairly suggest, in a method of gas-assist injection molding, the steps of applying a packing pressure to plastic material in a mold cavity, injecting pressurized gas into the plastic material in the mold cavity, holding the pressure of the gas and plastic in the mold cavity for a predetermined amount of time, and allowing a portion of the plastic material in the mold to be expelled into at least one secondary cavity coupled to the mold cavity. Newly cited art is similar to that already considered, such as Gotterbauer (US Patent 5,759,479) and Hildesson et al. (US Patent 6,372,177).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
